The Tropical Agriculturist:

The Agricultural Journal of Ceylon

Founded 1881.

Published by
The Department of Agriculture, Peradeniya.

Vol. LXVII.

.....

Containing Numbers I. to VI.
July to December, 1926.

Printers:—Cave, Colombo.

INDEX.

Page

A.

Agricultural Competitions in the Southern Division - 303
Agricultural Meteorological Work at Rothamsted - 181
Alawatugoda Sunday Market Show, 1926 - 122
Amazon Valley, Rubber Trees in the 317
Analyses of Some Green Manures - 233
Animal Disease Return for the Month ended 30th June, 1926 - 64
Animal Disease Return for the Month ended 31st July, 1926 - 128
Animal Disease Return for the Month ended 31st August, 1926 - 192
Animal Disease Return for the Month ended 30th September, 1926 256
Animal Disease Return for the Month ended 31st October, 1926 - 320
Animal Disease Return for the Month ended 30th November, 1926 384
Animal Nutrition - 126
Annatto from Ceylon, Report on - 124
Application of Disinfectants Used in the Cultivation of Rubber - 15
Arrangements of Field Experiments - 370
Arsenic Pentoxide as a Poison for Prickly Pear - 292
Artificial Farmyard Manure - 293

B.

Bacterial Leaf Spot of Betel - 242
Banana, "Panama" Disease of - 170
Bananas, "Bunchy Top" in - 96
Betel, Bacterial Leaf Spot of - 242
Board of Agriculture—Minutes of Meeting of the - 307
Bookbinding for the Tropics - 377
Budding and Seed Selection, Improvement of *Hevea brasiliensis* by - 257
Budding and Seed Selection of High Yielding Varieties of Hevea - 259
Budding of Rubber 3, 271
Budding of Rubber on a Commercial Scale - 86
Buddingwood, Some Remarks concerning Storing and Packing of - 264
"Bunchy Top" in Bananas - 96

C.

Calcium Cyanide and its Utilization in the Control of Insect Pests in Ceylon - 45
Calcium Cyanide Dust to the Control of Helopeltis in Tea, Preliminary Report on the Application of - 209
Chilaw Coconut Experiments - 91
Chilaw Vegetable Garden Competitions - 306
Citrus Diseases - 190
Cochineal Insects, Prickly Pear and 290
Coconut Experiments, Chilaw - 91
Coconuts, Value of Manuring - 137
Coffee, Curing of - 163
Comparative Experimental Tappings on Hevea Seedlings and Buddings from Unproved Clones - 41

Page

C.—*Contd.*

Competition in Bingiriya, Paddy Cultivation - 251
Competition in Dewamedi Hat Pattu, Paddy Cultivation - 252
Competition in Hiriyala Hat Pattu, Paddy Cultivation - 253
Competition in Kegalle District, Paddy Cultivation - 61
Competitions in Mannar District, 1926 - 306
Competitions in the North-Western Division, Wright Prize - 302
Competitions in the Southern Division, Agricultural - 303
Competitions, Report of Chilaw Vegetable Gardens - 306
Competitions Yala Season, 1926, Dewamedi Hat Pattu Paddy Growing - 304
Competitions, Yala Season, 1926, Nikaweratiya Paddy Cultivation - 304
Competitions, by Tiragandahaya Korale West (Bogamuwa) Co-operative Society, Paddy Growing - 253
Convention of the International Society of Sugar-Cane Technologists - 254
Co-operation: its Principles and Forms - 363
Co-operation Cannot Do, What - 180
Co-operative Movement in India - 175
Co-operative Paddy Bank, Poonakhari - 289
Cotton Cultivation at Embilipitiya - 161
Cotton Cultivation, Some Results with - 62
Cover Crops - 189
Crop Production, Soil in Relation to 341
Cultivators, Improved Conditions of Tenancy for the - 187
Curing of Coffee - 163
Curry-stuffs Cultivation Competition, by School Gardens in the Chilaw District - 305
Curry-stuffs Cultivation Competitions, Yala Season, 1926, Watareka - 305
Cut-Back Tea - 195
Cutworm Control - 333

D.

Decomposition of Green Manures under Peradeniya Conditions - 231
Deep Tapping *Versus* Shallow Tapping - 36
Dewamedi Hat Pattu Paddy Growing Competitions, Yala Season, 1926 - 304
Disease Return for the Month ended 30th June, 1926, Animal - 64
Disease Return for the Month ended 31st July, 1926, Animal - 128
Disease Return for the Month ended 31st August, 1926, Animal - 192

INDEX.—*Contd.*

Page

D.—*Contd.*

Disease Return for the Month ended 30th Sept., 1926, Animal - 256
Disease Return for the Month ended 31st October, 1926, Animal - 320
Disease Return for the Month ended 30th Nov., 1926, Animal - 384
Diseases and Pests of Rice in the Netherlands East Indies in 1925 - 224
Diseases and Pests of Rubber and Tea in Java and Sumatra in 1925 166
Diseases of Citrus and their Control, New Book on - 190
Disinfectants Used in the Cultivation of Rubber, Application of - 15

E.

Effect of Fern and other Growth on the Health and Growth of the Rubber Tree - 136
Efficiency of Certain Nitrogenous Manures for Paddy - 285
Estates Products Committee of the Board of Agriculture, Minutes of Meeting of the 102, 244, 354
Experiment Station, Peradeniya, Progress Report of the 117, 248, 350
Experiments, Arrangements of Field 370
Extraction of Palm Oil - 93

F.

Feeding Stuffs and their Effects on Live Stock, Review of Recent Work on the Mineral Contents of Pasture Grass and other - 56
Fern and other growth on the Health and Growth of the Rubber Tree, Effect of - 136
Field Experiments, Arrangements of 370
Food Products Committee of the Board of Agriculture, Minutes of Meeting of the - 171
Forests and Rainfall, Relation between - 380
Further Report on the Rate of Decomposition of Green Manures under Peradeniya Conditions - 231

G.

Grape Fruit in Ceylon - 193
Grass, Mineral Contents of Pasture 56
Green Manures, Analyses of some - 233
Green Manures Under Peradeniya Conditions, Further Report on the Rate of Decomposition of - 231

H.

Helopeltis in Tea, Preliminary Report on the Application of Calcium Cyanide Dust to the Control of - 209
Henaratgoda Tapping Experiments 89
Hevea, Budding and Seed Selection of High Yielding Varieties of - 259
Hevea brasiliensis by Budding and Seed Selection, Improvement of - 257
Hevea brasiliensis, Inoculation Experiments in Relation to "Sun-Scorch" on exposed Lateral Roots of - 329

Page.

H.—*Contd.*

Hevea brasiliensis, "Sun-Scorch" of Exposed Lateral Roots of - 133
Hevea brasiliensis, Three Kinds of Thread Blight on - 240
Hevea Seedlings and Buddings from Unproved Clones, Comparative Experimental Tappings on - 41
Housing and Feeding of Poultry - 361

I.

Important Points in Tea Manufacture 79, 203
Improved Conditions of Tenancy for the Cultivators - 187
Improvement of *Hevea brasiliensis* by Budding and Seed Selection - 257
Increasing Paddy Crops - 129
Inoculation Experiments in Relation to "Sun-Scorch" on Exposed Lateral Roots of *Hevea brasiliensis* - 329
Investigations and Rubber Research in Malaya - 131
Insect Pests in Ceylon, Calcium Cyanide and its Utilization in the Control of - 45

J.

June, Market rates for some Ceylon Products - 63
June, Meteorological Report - 64
July, Market rates for some Ceylon Products - 127
July, Meteorological Report - 128

K.

Kandy District Agricultural Committee, Minutes of Meeting of the 359
Kapok - 149
Kegalla District Agricultural Committee, Minutes of Meeting of the 174, 358

L.

Live Stock, Review of Recent Work on the Mineral Contents of Pasture Grass and other Feeding Stuffs and their Effect on - 56
Lower Burma Paddy and its Improvement - 215

M.

Mannar District Food Production Committee, Minutes of Meeting of the - 116
Mannar District, 1926, Competitions in - 306
Manufacture of Tea, Important points in 79, 203
Manure, Artificial Farmyard - 293
Manures for Paddy, Efficiency of Certain Nitrogenous - 285
Manuring Coconuts, Value of - 137
Manuring of Rubber Gardens with Artificial Manures in Java - 31
Manuring of Vines - 349
Market Rates of Some Ceylon Products 63, 127, 191, 255, 319, 383
Meteorological Return for June, 1926 - 64
Meteorological Return for July, 1926 - 128

INDEX.—*Contd.*

Page

M.—*Contd.*

Meteorological Return for August, 1926 - 192
Meteorological Return for September, 1926 - 256
Meteorological Return for October, 1926 - 320
Meteorological Return for November, 1926 - 384
Meteorological Work at Rothamsted, Agricultural - 181
Mineral Contents of Pasture Grass and other Feeding Stuffs and their Effect on Live Stock, Review of Recent Work on the - 56
Minutes of Meeting of the Board of Agriculture - 307
Minutes of Meeting of the Estates Products Committee of the Board of Agriculture 102, 244, 354
Minutes of Meeting of the Food Products Committee of the Board of Agriculture - 171
Minutes of Meeting of the Kandy District Agricultural Committee - 359
Minutes of Meeting of the Kegalla District Agricultural Committee 174, 358
Minutes of Meeting of the Mannar District Food Production Committee - 116
Minutes of Meeting of the Nuwara Eliya District Agricultural Committee - 356
Minutes of Meeting of the Tea Research Institute of Ceylon 107, 308
Minutes of Meeting of the Trincomalee District Food Production Committee - 315
Mycological Notes 94, 237, 323

N.

Neglected Aspect of the Weed Control - 333
New Book on Diseases of Citrus and their Control - 190
Nikaweratiya Paddy Cultivation Competition, Yala Season, 1926 - 304
Nitrogenous Manures for Paddy - 285
Nuwara Eliya District Agricultural Committee, Minutes of Meeting of the - 356

P.

Packing and Storage of Tea Seed - 336
Paddy Crops, Increasing - 129
Paddy and its Improvement, Lower Burma - 215
Paddy Cultivation Competition in Bingiriya - 251
Paddy Cultivation Competition in Dewamedi Hat Pattu - 252
Paddy Cultivation Competition in Hiriyala Hat Pattu - 253
Paddy Cultivation Competition in Kegalla District - 61
Paddy Cultivation Competitions, Yala Season, 1926, Nikaweratiya 304

Page

P.—*Contd.*

Paddy Growing Competition by Tiragandahaya Korale West (Bogamuwa) Co-operative Society - 253
Paddy, Growing Competition, Yala Season, 1926, Dewamedi Hat Pattu - 304
Paddy, Efficiency of Certain Nitrogenous Manures for - 285
Paddy Trials at Negombo, Pure Line Strains - 148
Palm Oil, Extraction of - 93
Palm Oil, Pollination of the - 382
"Panama" Disease of Banana - 170
Pathological Survey of the Para Rubber Tree (*Hevea brasiliensis*) in the Amazon Valley - 317
Pasture Grass and other Feeding Stuffs and their Effect on Live Stock, Review of Recent Work on the Mineral Contents of - 56
Pea-nut Growing—Preparation and Planting - 316
Periodic Tapping with Periodicity of Flow previously ascertained - 338
Poison for Prickly Pear, Arsenic Pentoxide as a - 292
Pollination of the Oil Palm (*Elaeis Guineensis*) the - 382
Poonakhari Co-operative Paddy Bank - 289
Poultry House Roof, the Slope of the 362
Poultry, Housing and Feeding of - 361
Preliminary Report on the Application of Calcium Cyanide Dust to the Control of Helopeltis in Tea - 209
Preliminary Testing of Pure Line Selections of Rice - 272
Preparation and Planting, Pea-nut Growing - 216
Prickly Pear, Arsenic Pentoxide as a Poison for - 292
Prickly Pear and Cochineal Insects 290
Progress Report of the Experiment Station, Peradeniya, 117, 248, 350
Pure Line Selections of Rice, Preliminary Testing of - 272
Pure Line Strains Paddy Trials at Negombo - 148

R.

Rainfall, Relation between Forests and - 380
Relation between Forests and Rainfall - 380
Report of Chilaw Vegetable Gardens Competitions - 306
Report on Annatto from Ceylon - 124
Research Scheme in Rubber - 7
Review of Recent Work on the Mineral Contents of Pasture Grass and other Feeding Stuffs and their Effect on Live Stock - 56
Rice Growing in Japan, Technique of - 139
Rice in the Netherlands East Indies in 1925, Diseases and Pests of - 224
Rice, Preliminary Testing of Pure Line Selections of - 272

INDEX.—*Contd.*

Page

R.—*Contd.*

Rubber and Tea in Java and Sumatra in 1925, Diseases and Pests of - 166
Rubber, Application of Disinfectants Used in the Cultivation of - 15
Rubber, Budding of 3, 271
Rubber Gardens with Artificial Manures in Java, Manuring of - 31
(Rubber) *Hevea brasiliensis*, "Sun-Scorch" of Exposed Lateral Roots of - 133
Rubber on a Commercial Scale, Budding of - 86
Rubber Research - 1
Rubber Research and Investigations in Malaya - 131
Rubber Research Scheme during 1925, Work of Ceylon - 7
Rubber Tapping Experiments, Henaratgoda - 89
Rubber Tree, Effect of Fern and other Growth on the Health and Growth of the - 136
Rubber Tree (*Hevea brasiliensis*) in the Amazon Valley, Pathological Survey of the Para - 317

S

Scheme to raise long Term Money 50
School Gardens in the Chilaw District, Curry-stuffs Cultivation Competitions by - 305
Shade Trees - 334
Shallow vs. Deep Tapping - 36
Show 1926, Alawatugoda Sunday Market - 122
Slope of the Poultry House Roof - 362
Soil in Relation to Crop Production - 341
Some Preliminary Notes on Tea Termites - 67
Some Remarks Concerning Storing and Packing of Buddingwood - 264
Some Results with Cotton Cultivation - 62
Storage and Packing of Tea Seed - 336
"Sun-Scorch" of Exposed Lateral Roots of *Hevea brasiliensis* - 133

Page

T.

Tapping, Deep Tapping *versus* Shallow - 36
Tapping with Periodicity of Flow previously ascertained, Periodic - 338
Tappings on Hevea Seedlings and Buddings from Unproved Clones, Comparative Experimental - 41
Tea, Cut-Back - 195
Tea in Java and Sumatra in 1925, Diseases and Pests of Rubber and - 166
Tea Manufacture, Important Points in 79, 203
Tea, Preliminary Report on the Application of Calcium Cyanide Dust to the Control of Helopeltis in - 209
Tea Research Institute of Ceylon, Minutes of Meeting of the 107, 308
Tea Seed, Packing and Storage of - 336
(Tea) Shade Trees - 334
Tea Termites - 65
Tea Termites, Some Preliminary Notes on - 67
Technique of Rice Growing in Japan - 139
Tenancy for Cultivators, Improved Conditions of - 187
Thread Blight on *Hevea brasiliensis*, Three Kinds of - 240
Trincomalee District Food Production Committee, Minutes of Meeting of the - 315

V.

Value of Manuring Coconuts - 137
Vegetable Gardens Competitions, Chilaw - 306
Vigna oligosperma - 332
Vines, Manuring of - 349

W.

Water Hyacinth - 170
Water Hyacinth - 321
Water Hyacinth Pest - 327
What Co-operation Cannot Do - 180
Work of Ceylon Rubber Research Scheme during 1925 - 7
Wright Prize Competition in the North-Western Division - 302

LIST OF ILLUSTRATIONS APPEARING IN Nos. 1-6 of VOL. LXVII.

	Page
The Open-Air Dusting of Tea with Calcium Cyanide	46
Treating a Termite Colony in the Royal Botanic Gardens, Peradeniya	46
Various Forms of *Calotermes militaris*	68
Various Forms of *Termes obscuriceps*	69
Tea Bush split in half to show Typical central cavity formed by *Calotermes militaris*; also Tea Bush showing typical injury caused by *Calotermes militaris*	72
Tea Bush sawn in half to show type of injury caused by *Calotermes dilatatus*	73
Top of Tea Bush showing injuries due to wood-rotting fungi which are utilized by the winged forms of *Calotermes dilatatus* to gain admittance to the interior of the bush; the same bush sawn in half to show galleries caused by *Calotermes dilatatus*.	74
Betel Leaf (inoculated) showing marginal infection	243
Betel Leaf (inoculated) showing infection at definite spots	243
Budding in Nursery—Medan	260
A Bud-Wood Nursery	260
Seedlings from Controlled Fertilization—A.V.R.O.S.	261
Part of 300-Acre Field of Budded Rubber —Sumatra	261
Budded Rubber, Java 18 months old—Showing Platform Terraces	262
Budded Rubber, Sumatra—Showing Terracing to Conserve Moisture	262
Budded Rubber, Java—Showing Contour Planting	263
Young Rubber, Java—Showing Individual Platform	263
Budded Rubber—7-8 Years old, giving 40 Grammes Dry Rubber per Tapping	264
300 Grammes Mother Tree	264
Ceylon Prickly-Pears	290
Leaf of *Opuntia dillenii* being attacked by the imported Cochineal *Dactylopius tomentosus*	291
Water Hyacinth showing Root System and Method of Vegetative Propagation	328
Water Hyacinth in Flower	329
